Cleaner, Drier, And More Secure Self-Storage.

Masterton Self-Storage has 266 purpose-built lockups including 27 different sizes. This means we'll have the right size lockup for your stuff. No point paying for more space than you need. Proper purpose-built lockups means your stuff is under 24/7 security-alarm monitoring and CCTV cameras are everywhere (you and your insurance company will love the security) and we guarantee your stuff stays free of dampness from condensation or you don't pay - it's free. This guarantee does not apply to the 3 shipping containers we have because shipping containers can and do sweat.
